2006 Chrysler PT Cruiser Touring

June 15, 2005, Auburn Hills, Mich. -

The Chrysler PT Cruiser Touring is powered by a standard 2.4-liter naturally aspirated engine that produces 150 horsepower (112 kW) and 165 lb.-ft. (220 N•m) of torque, coupled with a manual transaxle.

New standard features on the 2006 Chrysler PT Cruiser Touring model include an Electronic Vehicle Information Center, illuminated visor mirrors, courtesy map lamps, power outlets in the console and rear cargo area, and interior assist handles. Additional standard features over the 2006 Chrysler PT Cruiser model include air conditioning, a fold-flat passenger seat, power mirrors, remote keyless entry with illuminated entry, body color bodyside moldings, a shelf panel for the cargo area and a security alarm.

A Boston Acoustics premium audio system, which features a 368-watt amplifier and rear subwoofer, is a new optional feature on the 2006 Chrysler PT Cruiser Touring. Additional options include an automatic transaxle, side air bags, disc/drum anti-lock brakes, speed control, an AM/FM radio with six-disc CD changer with MP3 play capability, SIRIUS Satellite Radio with a free first-year subscription, sunscreen glass and power moon roof with sliding sun shade.
