

Chrysler Group's Indiana Transmission Plant II Awarded Bronze Designation in World Class Manufacturing

- First Chrysler Group transmission plant to achieve the World Class Manufacturing Milestone
- Becomes sixth North American Plant to earn bronze
- Ranking rewards improvements in safety, quality and productivity
- WCM implementation has saved the Company more than \$1 billion since June 2009

October 29, 2014, Auburn Hills, Mich. - Chrysler Group LLC's Indiana Transmission Plant II (ITPII) has been awarded bronze status for its results in implementing World Class Manufacturing (WCM). The Kokomo, Ind., transmission plant becomes Chrysler Group's first transmission plant and the sixth North American facility to achieve the WCM award milestone.

ITPII, which produces the five-speed transmission for various models in the Chrysler Group portfolio, received the bronze designation just over four years after adopting the WCM operating system following a two-day audit Oct. 27-28, 2014. Bronze is awarded after earning a minimum of 50 points in 10 technical and 10 managerial pillars by demonstrating clear WCM know-how and competence through employee-conducted pillar presentations and a review of projects that have been expanded across the shop floor. ITPII earned a score of 50.

"The employees at ITPII have demonstrated their commitment to World Class Manufacturing by accelerating the rate of improvement in their plant in order to achieve bronze," said Brian Harlow, Vice President and Head of NAFTA Manufacturing, Chrysler Group LLC. "The support of the UAW at both the local and international level has been critical in making Chrysler Group's manufacturing facilities among the best in the world."

World Class Manufacturing is a methodology that focuses on reducing waste, increasing productivity, and improving quality and safety in a systematic and organized way. WCM engages the workforce to provide and implement suggestions on how to improve their jobs and their plants. WCM was first implemented by Fiat in 2006 and introduced to Chrysler Group as part of the alliance between the two companies in June 2009. Since that time, the Company has saved more than \$1 billion in controllable manufacturing costs as a result of the implementation of WCM.

During an audit, zero to five points are awarded for each of the 10 technical pillars, which include safety, workplace organization, logistics and the environment, and for each of the 10 managerial pillars such as management commitment, clarity of objectives, allocation of people, motivation of operators and commitment of the organization. A score of 100 would indicate World Class.

In addition to ITPII, four other facilities currently hold bronze awards - Toledo Assembly Complex (Ohio), Saltillo Truck Assembly Plant (Mex.), Dundee Engine Plant (Mich.) and Trenton Engine Complex (Mich.). The Windsor Assembly Plant (Ont.), which earned its bronze designation in 2012, was awarded silver in March 2014, making it the Chrysler Group's highest ranking plant in North America.

Construction of ITPII began in 2002 and launched production in November 2003. Together with its sister plant, Indiana Transmission Plant I, the complex employs more than 2,500.

About FCA US LLC

FCA US LLC is a North American automaker based in Auburn Hills, Michigan. It designs, manufactures, and sells or distributes vehicles under the Chrysler, Dodge, Jeep®, Ram, FIAT and Alfa Romeo brands, as well as the SRT performance designation. The Company also distributes Mopar and Alfa Romeo parts and accessories. FCA US is building upon the historic foundations of Chrysler Corp., established in 1925 by industry visionary Walter P. Chrysler

and Fabbrica Italiana Automobili Torino (F.I.A.T.), founded in Italy in 1899 by pioneering entrepreneurs, including Giovanni Agnelli. FCA US is a member of the Fiat Chrysler Automobiles N.V. (FCA) family of companies. (NYSE: FCAU/ MTA: FCA).

FCA is an international automotive group listed on the New York Stock Exchange under the symbol "FCAU" and on the Mercato Telematico Azionario under the symbol "FCA."
