December 15, 2016, Auburn Hills, Mich. - Since its foundation in Milan, Italy, in 1910, Alfa Romeo continues to design and craft some of the most stunning and exclusive cars in automotive history, all while building on a racing heritage that includes some of the most talented and storied drivers and victories. The 2017 Alfa Romeo 4C Coupe offer driving enthusiasts a technical, mid-engine design inspired by the brand's legendary racing history and represents the essential sportiness embedded in the brand's DNA: handcrafted in Modena, Italy; seductive Italian style; state-of-the-art Formula 1 inspired carbon fiber monocoque chassis that enables an incredible power-to-weight ratio; advanced technologies, including the all-aluminum 1750 cc turbocharged engine with direct-injection, dual intercoolers, and variable-valve timing that enable supercar-level performance.

Highlights

- Ultralight carbon fiber monocoque and aluminum chassis structures afford 4C an incredible power-to-weight ratio, weighing less than 2,500 pounds lbs.
- Race-inspired performance: 0-60 miles per hour (mph) in 4.1 seconds thanks to an all-aluminum 1750 direct-injection, intercooled, turbocharged engine paired to the blistering fast Alfa TCT (twin-clutch transmission) and Alfa DNA selector with four adjustable drive modes
- The Akrapovic dual-mode exhaust system is directly linked to the four Alfa DNA selector drive modes, providing maximum Alfa Romeo sound in Dynamic and Race modes, and providing a quieter motoring experience in Natural and All-weather modes.
- Carbon Fiber Trim Package further proliferates 4C Coupe's use of carbon fiber on interior vents, instrument cluster surround and instrument panel and shift bezels
- Bespoke Italian style: Premium leather interior with Tobacco and Black sport seats paired with a Black leather interior with Tobacco accent stitching is available
- 4C Coupe features two composite-framed sport seats, with standard leather on the Spider, and an

exposed carbon fiber monocoque that exemplifies its race-inspired technologies
