FCA Canada: Ram and Mopar Customize the All-new 2019 Ram 1500 at Chicago Auto Show

- New Ram 1500 Mopar products, including 5 centimetre (2-inch) lift kit, off-road wheel flares, off-road beadlock-capable wheels and off-road style running boards, enhance all-new 2019 Ram 1500
- Unique new Mopar Ram Rack adds all-purpose utility with safe and secure storage of lifestyle equipment and gear
- Additional parts and accessories, including "Ram Airflow" cold-air intake system, vehicle graphics and more, highlight Mopar brand's 200-plus product menu for all-new Ram

February 9, 2018, Windsor, Ontario - The Ram Truck and Mopar brands teamed up today at the [Chicago Auto Show](#) (CAS) to debut an outdoor-sport-themed [2019 Ram 1500](#) modified with a selection of the more than 200 Mopar parts and accessories available for the all-new truck.

The customized show truck highlights the large menu of Mopar products, created through thousands of hours of testing and validation, available for the all-new Ram 1500. The fit, finish and function of all Mopar parts and accessories were developed in close concert with Ram Truck engineers and designers to harmonize with the all-new Ram.

"At the Chicago Auto Show, Mopar is showcasing the art of the possible when it comes to accessorizing the all-new Ram 1500," said Pietro Gorlier, Head of Parts and Service (Mopar), FCA. "With more than 200 parts and accessories, available at launch, Mopar delivers the largest array of factory-backed, authentic products to personalize the new Ram 1500 and make it truly one of a kind."

The Flame Red 2019 Ram 1500 Big Horn Sport 4x4 showcased at the Chicago Auto Show is equipped for the outdoors with a 5 centimetre (2-inch) Mopar lift kit that delivers additional off-road clearance and an aggressive appearance, while accommodating oversize, large tread 35-inch tires. Mopar 18-inch, six-lug off-road beadlock-capable wheels with matching trim rings keep the tires pegged to the rims when aired down for increased off-road grip and traction.

Black Mopar off-road wheel flares accentuate the 35-inch tires and provide additional defense against trail hazards. Durable, body-length Mopar off-road cast aluminum running boards add both visual appeal and functionality, with a skid-resistant stepping surface that offers better grip in muddy or wet conditions.

The 5-ft. x 7-ft. bed features a unique Mopar offering that will be available in the near future — a lifestyle Ram Rack, first shown as a prototype part on the Ram Macho Power Wagon concept vehicle at the 2016 Specialty Equipment Market Association (SEMA) Show. Large gear can be secured to the truck, demonstrating the capacity of the Ram Rack to store and transport a variety of lifestyle equipment.

The rear Ram Rack is adjustable, with the ability to slide all the way up to the front Ram Rack. The Ram Rack system mounts to the available production bed utility rails. A Mopar bed step featuring an articulating arm lowers down for easy access.

The new Mopar "Ram Airflow" cold-air intake system feeds a steady flow of fresh air to the 395 horsepower, 410 lb.-ft. of torque, 5.7-litre HEMI® V-8 engine. The intake, scheduled for availability later this year, is compatible with all hood applications for the all-new Ram and works in concert with the Mopar performance cat-back exhaust, which is constructed from AL409 stainless steel and emits a deep exhaust note.

Mopar 12.7 cm (5-in.) dual exhaust tips complete the package and feature dual wall thickness, fitting snug to the bumper and providing a smoother edge. Other exterior touches include matching black Mopar hood graphic stripes, blacked out Ram emblems and badging, front tow hooks and a Mopar logo hitch plug.

Inside, premium black Katzkin leather seats in the front and back are embroidered with Rebel red Ram's Head logos on the seatbacks. The same Rebel red stitching also accents the seats, door trim and centre console. New Mopar all-weather floor mats are embellished with the Ram's head logo and constructed with deeper channels and higher, more rigid sidewalls to contain water and other debris. Mopar brushed aluminum door sill guards carry the R-A-M text logo.

Mopar Factory Options

All-new 2019 Ram 1500 owners can add select Mopar accessories even before taking the keys via Mopar Factory Options.

Mopar Factory Options installed prior to vehicle's delivery are covered by the original warranty and are included in the Monroney label, giving the consumer the added advantage of having their customization included in the financing package.

About Ram Truck Brand

Since its launch as a stand-alone division in 2009, the Ram Truck brand has steadily emerged as an industry leader with trucks that are proven to last.

Creating a distinct identity for Ram trucks has allowed the brand to concentrate on core customers and the features they find valuable. Whether focusing on a family that uses a Ram 1500 day-in and day-out, a hard-working Ram 3500 Heavy Duty owner or a business that depends on its Ram ProMaster commercial van every day for deliveries, Ram has the truck market covered.

In order to be the best, it takes a commitment to innovation, capability, efficiency and durability. Ram Truck invests substantially in its products, infusing them with great looks, refined interiors, durable engines and exclusive features that further enhance their capabilities.

Truck customers, from half-ton to commercial, have a demanding range of needs and require their vehicles to provide high levels of capability. Ram trucks are designed to deliver a total package.

Mopar-first Features

During the brand's 80-plus years, Mopar has introduced numerous industry-first features including:

- Electronic Vehicle Tracking System (EVTS): first to market with a new interactive vehicle tracking device that sends owner a text when vehicle is driven too fast or too far based on pre-set parameters
- Electronic owner manuals: first to introduce traditional owner manuals on a smartphone app

About Mopar

Mopar (a simple contraction of the words MOtor and PARts) is the service, parts and customer-care brand for FCA vehicles around the globe. Born in 1937 as the name of a line of antifreeze products, the Mopar brand has evolved over more than 80 years to represent both complete care and authentic performance for owners and enthusiasts worldwide.

Mopar made its mark in the 1960s during the muscle-car era, with Mopar Performance Parts to enhance speed and handling for both road and racing use, and expanded to include technical service and customer support. Today, the Mopar brand's global reach distributes more than 500,000 parts and accessories in over 150 markets around the world. With more than 50 parts distribution centres and 25 customer contact centres globally, Mopar integrates service, parts and customer-care operations in order to enhance customer and dealer support worldwide.

Mopar is the source for genuine parts and accessories for all FCA US LLC vehicle brands. Mopar parts are engineered together with the same teams that create factory-authorized specifications for

FCA vehicles, offering a direct connection that no other aftermarket parts company can provide.
Complete information on the Mopar brand is available at www.mopar.ca.

FCA Canada

Founded as the Chrysler Corporation in 1925, FCA Canada Inc. is based in Windsor, Ontario, and celebrates its 97th anniversary in 2022. FCA Canada is a wholly owned subsidiary of FCA, a North American automaker based in Auburn Hills, Michigan and member of the Fiat Chrysler Automobiles N.V. (FCA) family of companies. FCA Canada has approximately 440 dealers that sell Chrysler, Dodge, Jeep®, Ram, FIAT and Alfa Romeo products, as well as SRT performance products. The company also distributes Mopar and Alfa Romeo parts and accessories. In addition to its assembly facilities, which produce the Chrysler Pacifica, Chrysler Pacifica Hybrid, Chrysler Voyager and Chrysler Grand Caravan (Windsor) and Chrysler 300, Dodge Charger and Dodge Challenger (Brampton), FCA Canada operates an aluminum casting plant in Etobicoke, a research and development centre in Windsor, and has sales offices and parts distribution centers throughout the country.
