2009 Chrysler Sebring Convertible - America's Favorite Convertible - Offers Class-leading Innovations, Fuel-efficient Engine Options and Two Convertible Top Choices

August 31, 2008, Auburn Hills, Mich. - The Chrysler Sebring Convertible delivers what no other convertible on the road can: Chrysler's sleek and elegant design, exhilarating performance with excellent fuel efficiency, a spacious interior that comfortably seats four adults and enough room in the trunk to hold two golf bags, even when the top is down.

The 2009 Chrysler Sebring Convertible offers two convertible top options: cloth and a body-color painted steel retractable hard top, both of which retract with the push of a button on the key fob. With a standard power hard tonneau cover on all models, top up or down, the Chrysler Sebring Convertible provides the benefits of a coupe and the true open-air freedom of a convertible at an affordable price.

Fuel economy is a high priority for many of today's car buyers, and the 2009 Chrysler Sebring Convertible's standard 2.4-liter four-cylinder World Engine with dual variable valve timing delivers fuel efficiency of 20 miles per gallon (mpg) in the city and 29 mpg on the highway. Mated to a four-speed automatic transaxle, this engine provides 173 horsepower (129 kW) and 166 lb.-ft. (225 N•m) of torque.

The 2009 Chrysler Sebring Convertible provides innovative features that will please both the driver and passengers, including:

- A trunk spacious enough to hold four golf bags when the convertible top is up and two golf bags when the top is down
- Available remote convertible top-down operation with the push of a button on the key fob
- Automatically latching convertible-top system
- Standard power hard tonneau cover neatly conceals the two convertible tops when retracted
- Seat belts integrated into front and rear seats enhance seat comfort and make it easier for passengers to get into the back seat
- Available Remote Start allows drivers to warm up or cool down their convertible from a distance
- Available windscreen reduces wind and road noise
- Locking glove box secures important documents and small items, top up or down
- Available heated/cooled cup holder helps keep warm beverages warm and cold beverages cool
- Stain Repel Seat Fabric with three key benefits: repels stains, controls odor and reduces static electricity
- uconnect phone with Bluetooth® technology, uconnect tunes, uconnect gps and uconnect studios with SIRIUS Satellite Radio
- Rear cup holders positioned in rear quarter panels for easy access by rear-seat passengers
- Passenger seatback with a map pocket for storage
- Doors with map pocket inserts

2009 CHRYSLER SEBRING CONVERTIBLE: WHAT'S NEW FOR 2009

EXTERIOR

- 18-inch chromed aluminum wheels (now standard on Chrysler Sebring Convertible Limited)
- Body-color painted steel retractable hard top (now standard on Chrysler Sebring Convertible Limited)
- Color: Silver Steel Metallic Clear Coat replaces Dark Titanium Metallic Clear Coat

INTERIOR

- Dark Slate Gray interior replaces Slate Gray/Light Slate Gray (all models)

- Trunk mat with brand logo and deck lid closing assist handle (all models)
- Floor mats and cabin air-filtration system (all models)
- Dramatically improved acoustic package for reduced noise levels in the cabin (all models)

ELECTRICAL

- uconnect phone featuring Bluetooth technology (now standard on Chrysler Sebring Convertible Limited)
- Heated front seats, windscreen, Remote Start, automatic headlamps, HomeLink universal home security system transceiver, automatic temperature control and heated/cooled cup holder (now standard on Chrysler Sebring Convertible Limited)

SAFETY AND SECURITY

- Electronic Stability Program (ESP) with All-speed Traction Control (now standard on Chrysler Sebring Convertible Touring and Limited)

PACKAGES

- Convenience Group now includes Remote Start with power top and windows down with the push of a button the on key fob (Chrysler Sebring Convertible LX)
- Premium Audio Group includes uconnect gps, auto-dimming mirror and Boston Acoustics speakers (Chrysler Sebring Convertible Touring)

DESIGN

The 2009 Chrysler Sebring Convertible shares many traits with its sedan sibling, including the distinctive face of Chrysler, the brand's signature eggcrate grille and a uniquely sculpted hood featuring the Chrysler brand's elegant lines.

The 2009 Chrysler Sebring Convertible takes a shape all of its own from the side. With an overall length that is three inches longer than the sedan, the side profile is lengthened and provides enough cargo room in the trunk to hold two golf bags when the roof is retracted.

From the rear, wide taillamps are mounted on the corners and deck lid for visibility and visual impact. Chrome-tipped dual exhaust outputs hint at the Chrysler Limited's performance capability with its standard 3.5-liter V-6 engine and six-speed automatic transaxle.

The 2009 Chrysler Sebring Convertible's interior features a modern, clean design with soft surfaces on interior touch points, including the instrument panel cover and door armrests.

As many as four occupants may experience the Chrysler Sebring Convertible's comfortable, roomy interior. Rear-seat passengers have plenty of head and leg room, which provides year-round functionality.

ENGINEERING

Three engine options power the 2009 Chrysler Sebring Convertibles sold in the United States: the standard 2.4-liter four-cylinder World Engine, an available Flex Fuel Vehicle (FFV) 2.7-liter V-6 engine and an available 3.5-liter V-6 engine coupled with a new six-speed automatic transaxle featuring Auto Stick.

Fuel economy is a high priority for many of today's car buyers, and the 2009 Chrysler Sebring Convertible's standard 2.4-liter four-cylinder World Engine with dual variable-valve timing delivers fuel efficiency of 20 mpg in the city and 29 mpg on the highway. Mated to a four-speed automatic transaxle, this engine provides 173 horsepower (129 kW) and 166 lb.-ft. (225 N•m) of torque.

The available 2.7-liter V-6 Flex Fuel Vehicle (FFV) engine produces 186 horsepower (139 kW) and 191 lb.-ft. 260 (N•m) of torque. This 2.7-liter V-6 engine achieves 18 mpg in the city and 26 mpg on the highway. It also operates effectively on any blend of gasoline and fuel-grade ethanol up to E85.

Chrysler Sebring Convertible Limited models sold in the United States feature a standard 3.5-liter V-6 engine that

produces 235 horsepower (175 kW) and 232 lb.-ft. (232 N•m) of torque coupled with a six-speed automatic transaxle that comes standard with Auto Stick. The 3.5-liter V-6 engine and six-speed automatic transaxle deliver excellent performance and fuel efficiency, as well as smooth quiet operation. The Sebring Convertible's 3.5-liter V-6 engine achieves 16 mpg in the city and 27 mpg on the highway.

The Chrysler Sebring Convertible has a rigid body structure to provide a quiet, comfortable ride and help eliminate cowl shake, even when the top is down. The front-wheel-drive architecture and the three-box vehicle design contribute to a body that is 2.5 times stiffer in twist and 1.5 times stiffer in bending than the previous-generation Chrysler Sebring Convertible. These refinements make the Chrysler Sebring Convertible structure stiffer than other convertibles on the market that cost thousands of dollars more.

PRODUCT HIGHLIGHTS

America's favorite convertible offers class-leading innovations and premium amenities at an affordable price

- Two convertible top options: cloth and retractable hard top
- Standard hard tonneau cover with automatic latching top
- Available convertible roof top and windows that retract with the push of a button on the key fob
- Available factory-installed windscreen
- Available Remote Start

Sleek, elegant hard-top design offers coupe styling with the fun and open-air freedom of a drop top for comfortable driving 365 days a year

Spacious interior with exceptional cargo room

- Best-in-class trunk space of 12.1 cubic feet with the top up and 6.6 cubic feet with the top down
- Trunk fits two golf bags when the top is retracted; four golf bags when the top is up
- Comfortable room for four adults - Sebring Convertible's rear seat provides a competitive 33.5 inches of leg room
- Front seat belts integrated into front seats for easy rear-seat entry

Fun-to-drive 3.5-liter engine provides excellent performance

- Available 3.5-liter engine with a six-speed automatic delivers 235 horsepower and 232 lb.-ft. of torque and achieves estimated fuel economy of 16/27 mpg (city/highway)
- Available 2.7-liter V-6 engine provides flex-fuel capability and delivers 18/26 mpg (city/highway)
- Standard 2.4-liter World Engine is fuel efficient and fun to drive, achieving an estimated 20/29 (city/highway)

Class-leading safety features

- Standard multi-stage front driver and passenger air bags
- Standard front-seat-mounted side air bags for head and thorax protection
- Low-risk deployment air bags
- Standard four-wheel-disc Anti-lock Brake System (ABS)
- Available ESP
